

Hurn 6 <sup>th</sup> grade Math 3 <sup>rd</sup> , 4 <sup>th</sup> , 5 <sup>th</sup> , 6 <sup>th</sup>	Monday 4-20-15 NWEA Rotation	Tuesday 4-21-15 B Day	Wednesday 4-22-15 A day	Thursday 4-23-15 B day	Friday 4-24-15 Regular Day
Objective	Content: I can define mean, median, mode, range, and outlier. I can calculate them from a given data set.  Language: " I can describe 3 real life situations where the mean is used"	Content: I can define mean, median, mode, range, and outlier. I can calculate them from a given data set.  Language: " I can describe 3 real life situations where the mean is used"	Content: I can demonstrate application mean, median, mode, range by completing a flipbook with definitions and an example.  Language: " I can describe how an outlier may affect data"	Content: I can demonstrate application mean, median, mode, range by completing a flipbook with definitions and an example.  Language: " I can describe how an outlier may affect data"	Testing all day
Vocabulary	Variable, pattern, Mean, median, mode, range, outlier

CCSS	6.NS.B.3 Fluently add, subtract, multiply, and divide multi digit decimals using the standard algorithm for each operation. 6.RP.A.3c Find a percent of a quantity as a rate per 100/ solve problems involving finding the whole, given a part and the percent. 6.EE.A.3 Apply the properties of operations to generate equivalent expressions. 6.NS.B.2 Fluently divide multi-digit numbers using the standard algorithm. 6.EE.B.7 Solve real-world and mathematical problems by writing and solving equations of the form $x + p = q$ and $px = q$ for cases in which $p$ , $q$ , and $x$ are nonnegative rational numbers. 6.RP.A.3a Make tables of equivalent ratios relating quantities with whole-number measurements, find missing values in the tables, and plot the pairs of values on the coordinate plane. Use tables to compare ratios. 6.RP.A.3b Solve unit rate problems including those involving unit pricing and constant speed.
