

Hurn 6 th grade Math 3 rd , 4 th , 5 th , 6 th	Monday 4-27-15 NWEA Rotation	Tuesday 4-28-15 NWEA Rotation	Wednesday 4-29-15 NWEA Rotation	Thursday 4-30-15 Regular day	Friday 5-1-15 Regular Day
Objective	Content: I can demonstrate application of 6 th grade math by completing the MStep Review packet.	Content: I can demonstrate application of 6 th grade math by completing the MStep Review packet.	Content: I can demonstrate application of 6 th grade math by completing the MStep Review packet.	Content: I can demonstrate application of variables and patterns by completing problem 2.3 correctly.	Content: I can demonstrate application of variables and patterns by completing problem 2.4 interpreting graphs correctly.
Vocabulary	Variable, pattern, Mean, median, mode, range, outlier, exponents, fractions, coordinate plane				
Differentiated Instruction/ Class set-up	Warm up ~ M-Step practice packet 3 rd , 4 th , 5 th 6 th ~ Mean, median, mode, range, practice packet	1. Review M-Step practice problems 6 th hour- M-Step practice packet	1. Continue M-Step review. Focus contingent on struggling topics from practice test.	1. Problem 2.3 Variables and patterns A-E	Problem 2.4 variables and patterns analyzing graphs.
CCSS	6.NS.B.3 Fluently add, subtract, multiply, and divide multi digit decimals using the standard algorithm for each operation. 6.RP.A.3c Find a percent of a quantity as a rate per 100/ solve problems involving finding the whole, given a part and the percent. 6.EE.A.3 Apply the properties of operations to generate equivalent expressions. 6.NS.B.2 Fluently divide multi-digit numbers using the standard algorithm. 6.EE.B.7 Solve real-world and mathematical problems by writing and solving equations of the form $x + p = q$ and $px = q$ for cases in which p , q , and x are nonnegative rational numbers. 6.RP.A.3a Make tables of equivalent ratios relating quantities with whole-number measurements, find missing values in the tables, and plot the pairs of values on the coordinate plane. Use tables to compare ratios. 6.RP.A.3b Solve unit rate problems including those involving unit pricing and constant speed.
